

1992 Economic Census

Reports in PDF format on this CD-ROM

The reports listed at right are made available in page-image format on this disc so that the CD-ROM Volume 1 series can be complete in its coverage of 1992 Economic Census data. Resources were not available to convert these reports to dBASE format, and thus these data cannot be accessed through the GO92 or EXTRACT software.

The Adobe(tm) Acrobat(tm) Reader allows you to view or print out any tables or text from the reports listed below. Unless you obtain "plug-in" software available commercially, the Reader does not allow reformatting or selection of data.

Data display in Acrobat can be exported to a text editor using the block copy and paste functions of Windows(tm). If you intend to transfer the data to a spreadsheet or database, and you don't have the plug-in software, you will need to either (a) use a text editor to add spaces or commas to line up columns, or (b) transfer the data one column at a time.

Each of the documents listed at the right has a built-in table of contents with hypertext links to each table. You can see the table of contents by clicking on the second icon from the left in Acrobat's normal display.

Click on any of highlighted titles to go to the corresponding document. Titles not highlighted will become available on CD-ROM 1J.

If you want to access other census reports in page image (PDF) format, check the Census Bureau's internet site at
<http://www.census.gov/prod/www/titles.html> .

Retail Trade, Subject Series:
